

Moen Replacement Cartridges

Moen 1200 replacement cartridge is for all Moen single-handle kitchen, lavatory, bar and tub/shower faucets (**excluding posi-temp tub/shower**). The Moen 1200 replacement cartridge repair most leaks and restores faucet action to like new condition. Moen 1200 replacement cartridge is a Genuine Moen Factory Repair Replacement Part.

Moen 1225 replacement cartridge is the replacement *cartridge* for all Moen, Legend, Chateau, Chalet and Touch Control models by Moen. The Magnum 1225 is used in single handle kitchen, lavatory, bar and tub/shower faucets (**excluding posi-temp tub/shower**).

Instructions are included in the package MOEN #1200 and #1225 Cartridge. The tools you will need are a pair of pliers, a Philips screwdriver, and an Allen wrench set.

Optional: white vinegar and an old toothbrush, to clean, demineralize and descale the faucet.

CAUTION: *Always turn water supply OFF before removing existing faucet. Turn faucet on to relieve water pressure and ensure water is completely off.*

- Remove cap button or helmet style cap to expose screw.
Optional: Pour white vinegar to help remove mineral deposits.
- Remove remaining parts. Hint: domes snap up and off; collars unthread. Some fixtures have a washer around stem that needs to be removed.
- Remove retainer clip (copper horseshoe-shaped clip). Most clips slide in from back to front or on tub and shower faucets, from top to bottom.
- Using white plastic twist cap tool (supplied in repair kit or with new cartridge) turn cartridge 90 degrees to the right and 90 degrees back to the left.
- With pliers, pull cartridge out of faucet.
Optional: Clean valve housing with white vinegar and toothbrush; rinse/flush with water.
- Insert new 1200 cartridge with tabs at 12 and 6 o'clock positions. The hole on the face of the cartridge stem will be facing 6 o'clock or down if replacing a tub and shower cartridge.
- Reassemble faucet accordingly.
- Open water supply.

Removes all *Moen* single lever 1200, 1225 & 1222 core cartridges plus Posi-Temp.
